Objective

I am seeking a **part-time frontend developer** position where I can leverage my programming skills and technical knowledge. With a strong foundation in computer science gained from both academic studies and practical experience, I am eager to apply my skills to real-world challenges and contribute to innovative development teams.

Education

2021 – 2026

Imam Abdulrahman Bin Faisal University

Bachelor / Computer Science

Skills

Web Development

HTML , CSS , JS , Typescript ,Tailwind , React , Next.js

App Development — Amateur

Dart , Swift , Flutter , React native

Soft Skills

Problem Solving , Critical Thinking ,Teamwork , Effective communication

Programming (Java, C++)

Oracle apps developer

SQL, PL/SQL , Oracle Forms , Oracle Reports

Database & Tools

Supabase , Git , Github

Projects

Zakat web [🔗](#)

I have developed a user-friendly web application that facilitates the calculation of zakat for individuals. The application is constructed utilizing **,Tailwind CSS, React js , and is hosted on GitHub Pages.**

To do [🔗](#)

I have developed a user-friendly web application designed to assist individuals in organizing their schedules. The application serves as a straightforward to-do list and was constructed using **HTML, Tailwind CSS, and JavaScript.**

M30 KDS (Jaicome)

I contributed to the development of the M30 Kitchen Display System app for Jaicome. My work focused on the frontend side, making sure the app was smooth and user-friendly. I also helped add multi-language support so it could be used in different languages, and took part in testing the whole app to ensure everything worked as expected

AlNas AI Chatbot [🔗](#)

I have developed a user-friendly web application for Al Nas Hospital, which belongs to ADES Company. The web application provides an AI-powered assistant that helps users interact, ask questions, and receive intelligent responses through a simple and modern interface, with a focus on accessibility and smooth user experience. I use Next.js, React , TypeScript , Tailwind CSS , Vercel,AI API integration

Experience

06/2025 – 08/2025
Remote

Summer Internship — Jaicome (Remote)

Role: Frontend Developer at M30 KDS (Jaicome)

I contributed to the development of the **M30 Kitchen Display System (KDS) app** for Jaicome, focusing on the frontend to ensure a smooth and user-friendly experience. I implemented **multi-language support** to make the app accessible in different languages and participated in **end-to-end testing** to ensure all features worked as expected, including the **landing page**.

06/2025 – 08/2025

Student Trainee - ADES

Role: Student Trainee at ADES

I assisted on the **PL rig** using **Oracle Reports** and contributed to improving the **OCC dashboard** with **Power BI**. Additionally, I developed a **user-friendly web application for AlNas Hospital**, which belongs to ADES Company. The application features an **AI-powered assistant** that allows users to interact, ask questions, and receive intelligent responses through a simple, modern, and accessible interface. The project was built using **Next.js, React, TypeScript, Tailwind CSS, and Vercel**, with **AI API integration** to enhance functionality and provide a smooth user experience.

Certificates

- Oracle Database 12c Developer Track (120 hours)
- Preparing Data for Analysis with Microsoft Excel
- Harnessing the Power of Data with Power BI

Volunteer

Google Developer Club

I worked on development unit, I gained fundamental knowledge of Dart language and Flutter. Also, I contributed to the creation of a simple UI design for a mobile application using Flutter.

Languages

- Arabic
- English

Awards

Excellence Certificate recipient

2022 , 2023 and 2024
