

Hawra Faris Alaradi

Al Khobar, Saudi Arabia | 0558395747 | Hawra-Alaradi@outlook.sa | github.com/hawra-17 | hawra-alaradi.dev

PROFESSIONAL SUMMARY

Computer Science fresh graduate (Imam Abdulrahman Bin Faisal University, June 2026) with practical experience building full-stack web and mobile applications through internships and personal projects. Proficient in React, Next.js, TypeScript, and Tailwind CSS, with exposure to Agile environments, REST API integration, real-time systems, and responsive web design. Seeking a Frontend Developer or Web Developer role to contribute clean, scalable, and user-centered UI solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Responsive Web Design

Backend & Database: Supabase, SQL, PL/SQL, Oracle Forms, Oracle Reports, REST APIs

Mobile Development: React Native (Expo), Flutter, Swift

Tools & Platforms: Git, GitHub, Vercel, Power BI, Recharts, jsPDF

Soft Skills: Problem-Solving, Critical Thinking, Teamwork, Effective Communication

WORK EXPERIENCE

Frontend Developer Intern — Jaicome (Remote)

Jun 2025 – Aug 2025

- Contributed to the M30 Kitchen Display System (KDS) React application, improving frontend performance and user experience for restaurant operations.
- Implemented internationalization (i18n) and multi-language support, expanding app accessibility across multiple regions.
- Conducted end-to-end (E2E) testing on the landing page and core features, ensuring consistent behavior across browsers and devices.
- Collaborated with the product team in an Agile workflow, participating in code reviews and sprint planning.

Software Developer Trainee — ADES

Jun 2025 – Aug 2025

- Developed a production web application for AlNas Hospital — an AI-powered assistant built with Next.js, React, TypeScript, Tailwind CSS, and deployed on Vercel with AI API integration.
- Assisted in PL rig operations using Oracle Reports and enhanced the OCC monitoring dashboard with Power BI visualizations.
- Designed and delivered data-driven insights that improved reporting efficiency for internal stakeholders.

PROJECTS

Najm Drone Web Dashboard | *Next.js, React, TypeScript, Tailwind CSS, Supabase, Recharts, jsPDF*

- Built a real-time road incident monitoring dashboard used to visualize incident reports, live GPS locations, and analytics through Supabase real-time subscriptions.
- Integrated Recharts for data visualization and jsPDF for exportable PDF incident reports.

Najm Drone Mobile App | *React Native, Expo, TypeScript, NativeWind, Supabase*

- Developed a cross-platform mobile app enabling users to report road incidents with automatic GPS location detection; submissions trigger live web dashboard alerts via Supabase.

AlNas AI Chatbot | *Next.js, React, TypeScript, Tailwind CSS, Vercel, AI API*

- Delivered an AI-powered conversational interface for Al Nas Hospital through ADES, providing an accessible and responsive user experience for patient inquiries.

M30 KDS (Jaicome) | *React, i18n, E2E Testing*

- Contributed multilingual frontend features and comprehensive end-to-end testing coverage for a restaurant kitchen display system.

EDUCATION

B.Sc. Computer Science — Imam Abdulrahman Bin Faisal University

2021 – 2026

- Expected graduation: June 2026.
- Excellence Certificate recipient: 2022, 2023, and 2024.

CERTIFICATIONS

- Oracle Database 12c Developer Track (120 hours)
- Preparing Data for Analysis with Microsoft Excel — Microsoft
- Harnessing the Power of Data with Power BI — Microsoft

VOLUNTEER EXPERIENCE

Development Unit Member — Google Developer Club

- Gained foundational Dart and Flutter skills; contributed to mobile application UI design for a community app project.
